

# Material Safety Data Sheet Descaler SFHDX20

S	ection 1. Chemical Product and Company Identification
	contraction in Constant and Company Administration
Product Name	Descaler SFHDX20
Product Number	NTA DSFHDX20
Manufacturer/ Supplier	NuTech Specialties, Inc. 9811 So. 6150 W. West Jordan, UT 84088
Phone Number	(801) 253-1000 (Mon-Fri/ 8am- 5pm MT)
D.O.T. Emergency Phone:	1-800-633-8253
Date of Preparation	September 25, 2012Revision Number1.0
	Section 2. Hazards Identification
Emergency overview	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
DANGER!	
	en. ing storage. Ensure that eyewash stations and safety showers are proximal to the work- Avoid contact with skin and eyes.
Potential Acute Health Effects	Corrosive to skin and eyes on contact, liquid or spray mist may produce tissue damage particularly on mucous membranes of eyes, mouth and respiratory tract. Skin contact may produce burns.
Routes of Entry	Eye Contact, Skin contact, Ingestion, INHALATION.
Eyes	Corrosive to the eyes. Liquid and mist can cause pain, and tearing, possible swelling of the conjunctiva, and corneal destruction.
Skin	Corrosive to the skin. Can cause severe chemical burns and possible ulceration.
Inhalation	Inhalation may severely burn respiratory tract. Irritating to mucous membranes in the nose, throat, and lungs. May cause coughing, chest pain, and difficulty in breathing, prolonged exposure may result in tissue damage.
Ingestion	Extremely corrosive to the mouth and throat. May result in severe chemical burns. May cause coughing, choking, headaches, and dizziness. Can cause severe abdominal pain, nausea, vomiting, and possible collapse.
Medical conditions aggravated by exposure:	Prolonged exposure may result in skin burns and ulcerations. Severe over-exposure can produce lung damage, choking, unconsciousness or death.
Potential Chronic Health	Prolonged exposure may result in skin burns and ulcerations. Severe over-exposure can produce lung damage, choking, unconsciousness or death.
Carcinogenic Effects	Not classified or listed by IARC, NTP, OSHA, EU and ACGIH.
Target Organs	
Environmental Effects	Not available.

S	Section 3	. Composition a	and Inform	ation on Ingredients	
Name		CAS #	% by Weight	Exposure Limits	LC50/LD 50
Ammonium Hydrogen Fl	uoride	7664-39-3	Proprie	tary	3 PPM
Phosphoric Acid		7664-38-2	Proprie	•	1 MG/M3
Sulfuric Acid		7664-95-9	Proprie		
Glycol Ether EB		111-76-2	Proprie		
		Section 4. F	irst Aid M	easures	
Eye Contact	IMMED at least 1 first 5 m alleviate	IATE MEDICAL A 5 to 20 minutes, ke inutes, then continue pain until physicia	ATTENTION eeping eyelids te rinsing eye n arrives add	. IMMEDIATELY flush open. Remove contact le . Repeat once or twice at 2 drops of 0.5% "Pontoca	15 minute intervals. To
Skin Contact	with run		abrasive soa	p for 15 to 20 minutes. Ca	ighly the contaminated skin all a poison control center of
Inhalation	artificial	respiration, prefera	ably mouth to	t breathing, call 911 or an mouth if possible. If brea ek medical attention if sys	athing is difficult, give
Ingestion	a glass o poison c	of water if able to sw ontrol center or doc	vallow. DO N tor. DO NOT	OT induce vomiting unle	to an unconscious person
General Advice	In case of Accident or if you feel unwell, seek medical advice immediately (show label or MSDS where possible).				
Notes to Physician	Not avai	lable			
		Section 5. Fire	e Fighting	Measures	
Flammability	Not to b	e considered a fire l	hazard		
Fire Fighting Media and instructions	Water sj	oray, Foam, Carbon	Dioxide		
Products of Combustion	Not avai	lable			
Special Remarks on Fire Hazards	full prot		ay be needed	. Product is non-Flammal	creased by heat. In such case ole, However, it can react
Special Remarks on Explosion Hazards	full prot		ay be needed	. Product is non-Flammal	creased by heat. In such case ble, However, it can react
Sensitivity to Mechanical Impact	None				
Sensitivity to Discharge	None				
Protection of Fire Fighters	See spee	cial remarks on Fi	re Hazards		

	Section 6. Accidental Release Measures
Personal Precautions	Face shield. Full suit. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.
Methods for Containment	Corrosive liquid. Avoid to runoff to sewers and waterways. Water protective clothing. Absorb with inert material. Contact your local Emergency planning commission for further instructions. Absorb with an in inert material and put the spilled material in an appropriate waste disposal.
Environmental Precautions	Neutralize with lime and flush with water. Runoff to sewer may create a hazard in the case of large spills; Notify authorities
Methods for Clean Up	DO NOT breathe vapor, get in eyes, on skin, or on clothing. Keep personnel upwind of spill and DO NOT enter area unless equipped with full protective equipment and self contained breathing apparatus.

Section 7. Handling and Storage		
Precautions	Store in well ventilated building or sheds. Protect against heat and physical damage. DO NOT get in eyes, no skin, on clothing. DO NOT breathe vapor. Keep container closed. Wash thoroughly after handling. Keep locked up. Keep container dry. DO NOT INGEST. Do not breathe the gas, fumes, vapor or spray. Wear suitable protective clothing. If ingested, seek medical advice immediately and show the container or label. Avoid contact with skin and eyes. After handling, always wash hands thoroughly with soap and water.	
Incompatibility	Strong alkalis, most metal, bleach. Alkalis incompatible with chlorinated solvents. Incompatible with alcohols and wide variety of metals	
Storage	Corrosive materials should be stored in a separate safety storage cabinet or room. Not for use or storage in or around the home. Keep out of reach of children. For Institutional and Commercial Use	

Keep out of reach of children.

Keep container closed during storage. Ensure that eyewash stations and safety showers are proximal to the work station location. S24/25- Avoid contact with skin and eyes.

	Section 8. Exposure Controls/Personal Protection
Engineering Controls	
Personal Protection	Good general ventilation should be sufficient to control airborne levels. Eye wash fountain and safety shower highly recommended.
Eyes	Chemical safety splash goggles and Face Shield
Body	Rubber boots, in considerable exposure a full rubber suit should be used. Also additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces.
Respiratory	Wear appropriate U.S. Bureau of mines approved respirator.
Ventilation Requirements	None for normal use. Self-contained breathing apparatus for severe exposure
Hands	Impervious gloves
Protective Clothing (Pictograms)	

**Exposure Limits** 

Phosphoric Acid: Oral (Rat) 1530 mg/kg Ammonium Bifluoride: LD50-not found Consult local authorities for acceptable exposure limits.

	Section 9. Physical and Chemical Properties
Physical State and Appearance	Clear Liquid
Molecular Weight	N/A
Ph	0.5 to 1.0
Boiling/Condensation Point	212 F
Melting/Freezing Point	None above 32 F
Critical Temperature	Non applicable
Instability Temperature	Not applicable
Specific Gravity	(H20 = 1): 1.09
Vapor Pressure	(Non-Aerosols)(mm Hg and Temperature): N/A
Vapor Density	(Air = 1)
Volatility	N/A
VOC	N/A
<b>Evaporation Rate</b>	(H20 = 1): N/A
<b>Dispersion Properties</b>	N/A
Solubility	Complete in water
The Product is:	Non-Flammable, Acidic Liquid
Auto-ignition Temperature	N/A
Flash Points	Non-Flammable
Flammable Limits	Not applicable
Fire Hazards in Presence Of Various Substances	Product is non-Flammable, however, it can react with metals to produce hydrogen, a flammable gas
Explosion Hazards in Presence of Various Substances	Product is non-Flammable, however, it can react with metals to produce hydrogen, a flammable gas
Odor	Acidic
Color	Clear

### Section 10. Stability and Reactivity Data

Stability	The product is stable.
Incompatibility with Various Substance	Strong alkalis, most metal, bleach. Alkalis incompatible with chlorinated solvents. Incompatible with alcohols and wide variety of metals
Hazardous Decomposition Products	Will not occur.

### Section 11. Toxicological Information

Routes of Entry	Skin Contact. Ingestion. Eye Contact.
Toxicity to Animals	Oral (Rat) LD50 1530 mg/kg (Phosphoric Acid)
Acute Effects on Humans	
Eyes	Corrosive to the eyes. Liquid and mist can cause pain, and tearing, possible swelling of the conjunctiva, and corneal destruction.
Skin	Corrosive to the skin. Can cause severe chemical burns and possible ulceration.
Inhalation	Inhalation may severely burn respiratory tract. Irritating to mucous membranes in the nose, throat, and lungs. May cause coughing, chest pain, and difficulty in breathing, prolonged exposure may result in tissue damage.
Ingestion	Extremely corrosive to the mouth and throat. May result in severe chemical burns. May cause coughing, choking, headaches, and dizziness. Can cause severe abdominal pain, nausea, vomiting, and possible collapse.
Chronic Effects on Humans	Prolonged exposure may result in skin burns and ulcerations. Severe over-exposure can produce lung damage, choking, unconsciousness or death.
Special Remarks on Toxicity to Animals	No additional remark
Special Remarks on Chronic Effects on Humans	No additional remark

## Section 12. Ecological Information

Ecotoxicity	No information found
BOD5 and COD	Not available
Products of Biodegradation	Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.
Toxicity of the Products of Biodegradation	Not available
Special Remarks on the Products of Biodegradation	Not available

	Section	13. Disposal Considerations	
Waste Information	Waste must be disp regulations.	bosed of in accordance with federal, state and local environmental control	
Waste Stream	Not available		
	Section	14. Transport Information	
DOT (U.S.A.) (Pictograms)	N32 DOSIVE		
TDG Classification	8		
PIN UN, Proper Shipping Name, PG	Shipping Name: UN 1760, Corrosive liquid, NOS (Sulfuric Acid) 8, PGII ERG 154		
Maritime Transportation	Not a "marine pollu	utant"	
Special Provisions for Transport	Not available.		
	Section 15. Regu	ulatory Information and Pictograms	
Regulatory Lists	No products were f	cound.	
Other Regulations	OSHA: Hazardous by definition of Hazard Communication Standard (29 CFR 1910.1200).		
Other Classifications	HCS (U.S.A.) HCS Class: Corrosive Liquid. HCS Class: Toxic.		
	USA Regulatory Lists	This product does NOT contain components that are known to the state of California to Cause Cancer or Reproductive Harm at or above California Prop 65 No Observable Effect Level (NOEL) SARA 302 Extremely Hazardous Substances - Not listed SARA 311 - 1. Immediate (acute) health hazard SARA 313 Toxic Chemical List – Not listed	
	DSD (EEC)	R22- Harmful if swallowed. R35- Causes severe burns.	
	International Regulations Lists	No Products were found.
