## OUR SERVICE SETS US APART FROM THE REST

We have training seminars monthly to insure that our customer service representatives are knowledgeable and trained. We have a technical department with over 30 years experience in maintenance cleaning and blending of products to meet special needs. Customers are welcome to call and get information on how to use products and to clean problem areas. We will blend special products if needed. We maintain our own fleet of delivery trucks to insure unbeatable delivery service to our customers! Product and supplies can usually be delivered same day if needed!

All we ask from you as a prospective customer is that you give us a chance to prove what we can do for you! To demonstrate what our current customers have realized, that reducing stocking inventory, with a "just in time" delivery service, reduces your cost. Our Service Reps. are trained to be honest and ethical, not to over stock and to have a goal of a consistent monthly sales approach, since most customers try to operate on a monthly budget! Our high quality, concentrated products with consistent performance will conserve space. We also offer a full line of automatic dilution systems, often at no charge to the customer, to control usage rates!

# OUR SERVICE SETS US APART FROM THE REST

We have training seminars monthly to insure that our customer service representatives are knowledgeable and trained. We have a technical department with over 30 years experience in maintenance cleaning and blending of products to meet special needs. Customers are welcome to call and get information on how to use products and to clean problem areas. We will blend special products if needed. We maintain our own fleet of delivery trucks to insure unbeatable delivery service to our customers! Product and supplies can usually be delivered same day if needed!

All we ask from you as a prospective customer is that you give us a chance to prove what we can do for you! To demonstrate what our current customers have realized, that reducing stocking inventory, with a “just in time” delivery service, reduces your cost. Our Service Reps. are trained to be honest and ethical, not to over stock and to have a goal of a consistent monthly sales approach, since most customers try to operate on a monthly budget! Our high quality, concentrated products with consistent performance will conserve space. We also offer a full line of automatic dilution systems, often at no charge to the customer, to control usage rates!

# OUR SERVICE SETS US APART FROM THE REST

We have training seminars monthly to insure that our customer service representatives are knowledgeable and trained. We have a technical department with over 30 years experience in maintenance cleaning and blending of products to meet special needs. Customers are welcome to call and get information on how to use products and to clean problem areas. We will blend special products if needed. We maintain our own fleet of delivery trucks to insure unbeatable delivery service to our customers! Product and supplies can usually be delivered same day if needed!

All we ask from you as a prospective customer is that you give us a chance to prove what we can do for you! To demonstrate what our current customers have realized, that reducing stocking inventory, with a "just in time" delivery service, reduces your cost. Our Service Reps. are trained to be honest and ethical, not to over stock and to have a goal of a consistent monthly sales approach, since most customers try to operate on a monthly budget! Our high quality, concentrated products with consistent performance will conserve space. We also offer a full line of automatic dilution systems, often at no charge to the customer, to control usage rates!

# OUR SERVICE SETS US APART FROM THE REST

We have training seminars monthly to insure that our customer service representatives are knowledgeable and trained. We have a technical department with over 30 years experience in maintenance cleaning and blending of products to meet special needs. Customers are welcome to call and get information on how to use products and to clean problem areas. We will blend special products if needed. We maintain our own fleet of delivery trucks to insure unbeatable delivery service to our customers! Product and supplies can usually be delivered same day if needed!

All we ask from you as a prospective customer is that you give us a chance to prove what we can do for you! To demonstrate what our current customers have realized, that reducing stocking inventory, with a "just in time" delivery service, reduces your cost. Our Service Reps. are trained to be honest and ethical, not to over stock and to have a goal of a consistent monthly sales approach, since most customers try to operate on a monthly budget! Our high quality, concentrated products with consistent performance will conserve space. We also offer a full line of automatic dilution systems, often at no charge to the customer, to control usage rates!

# OUR SERVICE SETS US APART FROM THE REST

We have training seminars monthly to insure that our customer service representatives are knowledgeable and trained. We have a technical department with over 30 years experience in maintenance cleaning and blending of products to meet special needs. Customers are welcome to call and get information on how to use products and to clean problem areas. We will blend special products if needed. We maintain our own fleet of delivery trucks to insure unbeatable delivery service to our customers! Product and supplies can usually be delivered same day if needed!

All we ask from you as a prospective customer is that you give us a chance to prove what we can do for you! To demonstrate what our current customers have realized, that reducing stocking inventory, with a “just in time” delivery service, reduces your cost. Our Service Reps. are trained to be honest and ethical, not to over stock and to have a goal of a consistent monthly sales approach, since most customers try to operate on a monthly budget! Our high quality, concentrated products with consistent performance will conserve space. We also offer a full line of automatic dilution systems, often at no charge to the customer, to control usage rates!
